Dunn Creek Greenway

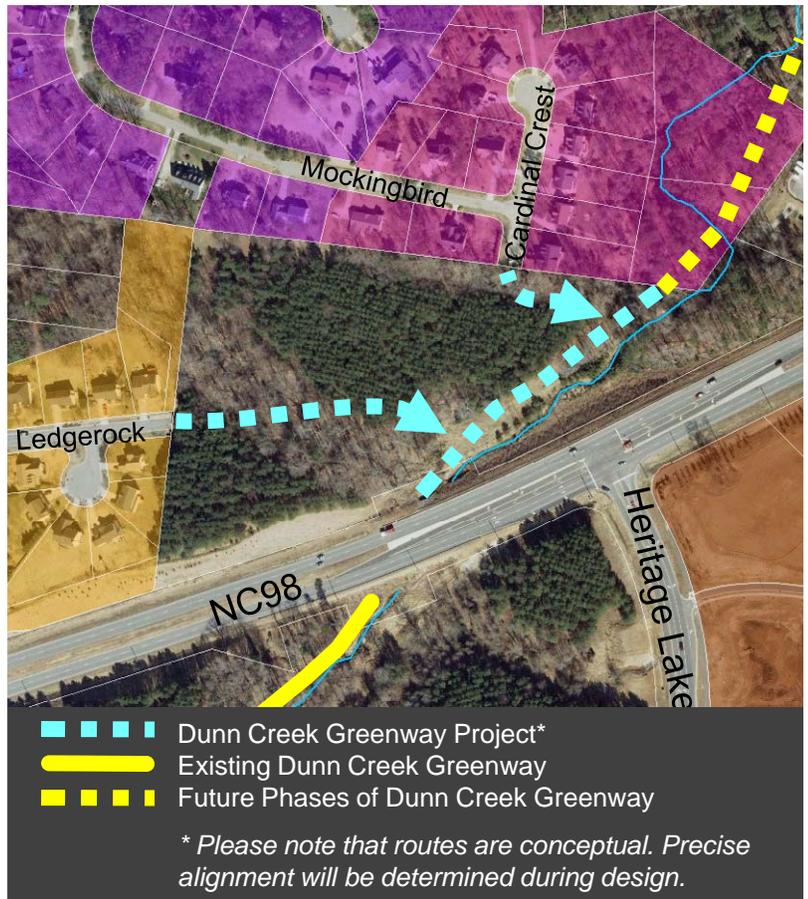

Frequently Asked Questions

Project Description:

The proposed Dunn Creek Greenway – Downtown Connector will extend north for approximately .3 mile from the existing northern end of the Dunn Creek Greenway at the NC 98 Bypass/Dr. Calvin Jones Highway pedestrian culvert. In addition to providing useful connections to the Deacons Ridge and Cardinal Park subdivisions, the trail will also offer easy access to downtown. The project will also provide lighting and address drainage issues within the existing pedestrian culvert.

Project Goals:

- Connect Wake Forest neighborhoods with larger greenway network which includes these destinations and greenways;
 - Downtown Wake Forest
 - Raleigh Capital Area Greenway
 - Triangle Greenways – Cary, Knightdale, RTP, Durham and Apex
 - Umstead State Park
 - Mountains to Sea Trail and East Coast Greenway
- Provide more transportation choices
- Increase access to no charge exercise and recreation facilities

Project Budget:

Design	\$ 98,000
Construction	\$332,600

Funding Sources:

Federal, State and Local

Project Schedule:

Citizen Workshop - Listen and Vision	June 25th
Survey	June/July
Alternative Analysis	July
Citizen Workshop - Present Alternatives	August 20 th
Preliminary Design	August/October
Geotechnical Investigations	October
Permitting	October/January
Final Design	November/January
Construction	Begin 2014 - 4-6 Month Duration
