**FOR IMMEDIATE RELEASE**

### **TOWN LAUNCHES INTERACTIVE ONLINE TRANSPORTATION PROJECTS MAP**

**WAKE FOREST, NC – June 19, 2012** – The Town of Wake Forest has launched a new interactive map on its website that provides basic information about transportation projects in our area. Located at [www.wakeforestnc.gov/residents/transportationmap.aspx](http://www.wakeforestnc.gov/residents/transportationmap.aspx), the map highlights projects that have active construction sites, are in the process of being designed or permitted, and/or are currently funded for future design/construction.

Active transportation projects are highlighted in orange and include construction and enhancements to roads, sidewalks, greenways, bridges, multi-use paths, bike lanes, and other components of the transportation system.

Funded projects are shown in blue and indicate the Town has been awarded a grant, but the project is not yet in the development stage.

Visitors to the site can click on a particular project and view the project type, as well as the date construction is scheduled to begin, the funding source, and links to additional information.

For more information about Wake Forest's active transportation projects map, contact Assistant Town Engineer Holly Miller at (919) 435-9443 or [hmillier@wakeforestnc.gov](mailto:hmillier@wakeforestnc.gov) or Senior Planner Candace Davis at (919) 435-9513 or [cdavis@wakeforestnc.gov](mailto:cdavis@wakeforestnc.gov).
